

The background is a light cream color with a subtle texture. It is decorated with several orange pumpkins of different sizes and shapes, each with a unique carved face. Some faces are smiling, while others are spooky with wide eyes and jagged mouths. Interspersed among the pumpkins are various autumn leaves in shades of orange, yellow, and red, along with thin, dark green vine-like branches. The overall theme is Halloween and autumn.

IMPORTANT NOTICE

Waste Services provider Change

As of October 6th, 2025 the Village of Warburg
will be utilizing Integrity Waste Solutions for
our garbage and recycling pickup.

Important Notes:

- Garbage and recycling pickup dates WILL NOT change. The schedule is continuing for the 2025/2026 year.
- We ask that garbage and recycling be placed at the curb by 7:00 am on the date of collection.
- Please ensure all bins have appropriate clearance of 4 feet around all sides, are not obstructed by objects above bin, and are placed on level ground for efficient collection.
- Ensure items in bins are bagged, and that bins are not overflowing. Lids must be able to close. Remember that if a bin is too tightly packed, it may not empty properly.
- Recycling must be inside of blue bags, with large recycling collapsed and neatly bundled beneath the blue bag.

The bins will remain the same. No new bins will be issued, as the new service provider will continue using the existing bins. Therefore, there is no need to leave them out for collection after the September 30, 2025 garbage pickup.

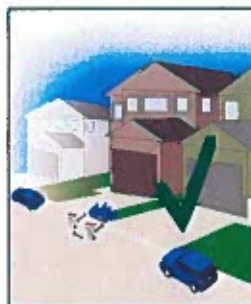

Warburg RECYCLE RIGHT

Use blue bags ONLY. Recyclables in black or clear bags or other receptacles will not be collected.

IMPORTANT INFORMATION PLACING YOUR WASTE CARTS FOR COLLECTION

FRONT STREET CART PLACEMENT

CART COLLECTION

1. All cart lids must close completely.
2. Please bag materials in the waste cart. Carts must not be over-packed. Tightly packed carts do not empty properly when jammed full and can result in damage to carts and/or property and excessive litter/loose debris.
3. Place your cart out on your collection day by 7am.
4. Ensure 1m (4 ft) clearance all around and above cart (including between carts and bags and parked cars).
5. Face carts to roadway, spaced appropriately using all available space to either side of driveways and cars.
6. Cart should be placed clear of any overhead obstructions, such as trees, powerlines, or roof overhangs.
7. Carts should be placed on level ground. In winter this may require clearing snow for cart placement.

STUCK MATERIALS

Residents are responsible for loading carts in a manner that allows carts to empty freely when inverted. Collection operators are not responsible for jammed materials.
